

**SCALA
RIDER®
MultiSet™
Q2™**

**Bike-to-Bike
Intercom
Communications
UP TO 500 METERS***

**Double the fun with two
SCALA RIDER® Q2™ headsets**

SCALA RIDER Q2 MultiSet offers bikers top quality, intercom communication between two pre-paired headsets for a distance of 500m*.

The MDC (Multiple Device Connection) technology allows bikers to receive GPS voice instructions, communicate with other bikers or with the passenger on the back seat, conduct calls on their mobile phone and listen to the embedded FM radio.

Now each headset includes an MP3 jack so bikers and passengers can listen to their favorite tunes from their own MP3 player by just plugging it into the unit.

SPECIAL FEATURES INCLUDE:

- **Bike-to-Bike intercom communications** among up to three bikers within a range of 500 m.*
- **Rider-to-Passenger communications:** Both Rider and passenger may communicate via intercom as well as independently conduct mobile phone calls, listen to the FM radio or the MP3 player.
- **Full Duplex:** No longer the walkie-talkie syndrome where one party can only speak when the other is silent. The **SCALA RIDER® Q2** allows bikers and passengers to talk and listen simultaneously.

MULTIPLE DEVICE CONNECTIONS

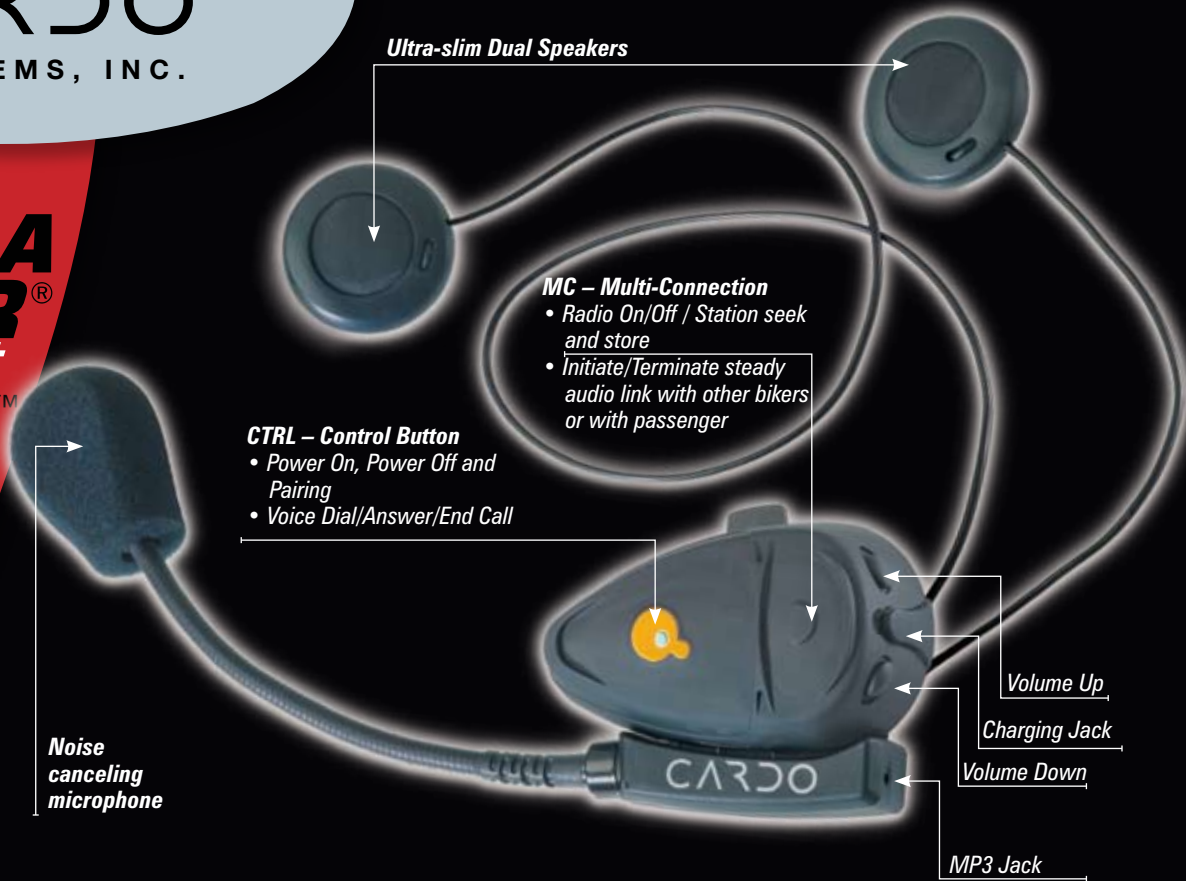

EACH UNIT WORKS WITH UP TO FOUR DIFFERENT BLUETOOTH DEVICES:

- **Mobile Phone** – receive incoming calls by voice command and initiate calls by one-button push and voice command
- **Other SCALA RIDER Q2 Headsets** – communicate in parallel with up to two other SCALA RIDER Q2 headsets
- **GPS unit** – receive audio instructions via headset
- **Any paired SCALA RIDER headset**

ADDITIONAL ENTERTAINMENT FEATURES:

- **Embedded FM Radio**
- **Connection to an MP3 Player** (cable included)
